

## **Destination Data**

### **Year 11**

#### **Gatsby Benchmark 3 – Addressing the Needs of Each Learner**

#### **Gatsby Benchmark 8 – Personal Guidance**

The destination data provides evidence that students have received personal guidance that has enabled them to make sustainable choices for their Post-16 destination. UCC continues to enable young people to move onto further education of their choosing, including A Level Qualifications, NVQ Level Qualifications, Apprenticeships or Full Time Employment and Training.

Despite the many challenges that the students face when making post-16 choices, the guidance that is given to our students means that UCC consistently performs above the national average of 94%.

The main challenge faced by UCC students is the lack of Sixth-Form at the college. Students are faced with the task of finding a Post-16 provider that offers the course they want to go onto. For some students, this can involve an additional 3 hours travelling each day, on top of their studies.

This means that finding the right Post-16 provider is crucial for our students, heightening the importance of the personal guidance. On average, our students go on to 29 different providers each year. This includes apprenticeships and employment.

When receiving personal guidance, students are able to explore all the options that are available to them. This is done through group work, small group work or 1:1 via our careers advisor. This is supplemented throughout the year with post-16 talks and visits.

<b>Level 3</b>	Level 3 qualification enable learners to gain or apply a range of knowledge, skills and understanding at a detailed level. Study at this level is more challenging as they are preparation for careers or further and degree level study.
<b>Level 2</b>	Level 2 courses are intermediate level. They provide a good knowledge and understanding of a subject and require the learner to do a variety of tasks with some guidance or supervision. The qualifications gained at this level are suitable for many job roles.
<b>Level 1</b>	Level 1 courses are an introduction into general work and practical hands-on activities, the foundation level courses allow learners to gain skills that will help them get a job or qualification.
<b>NVQ</b>	The NVQ is a work-based qualification that recognises the skills and knowledge a person needs to do a job.
<b>NEET</b>	Not in any education, employment or training.
<b>Home Tuition</b>	Receiving tuition at home
<b>Employment</b>	In employment of at least 20 hours per week.
