

Spanish Year 7	Curriculum Intent: In year 7 students will study 4 areas pertinent to their life. They will focus on understanding and expressing descriptions and opinions. Grammatical knowledge will be built upon with key structures to each topic, such as adjectives and time, alongside a study of knowledge which is transferable and relevant for future learning such as opinions and verb conjugation. Continual skill development will occur through the inclusion of the four key areas of listening, speaking, reading and writing. Students will make links between these areas to develop their understanding of how languages work. A range of skills within these key areas will be developed throughout each unit with repeated practice. Each assessment will be used to inform future learning in the next unit, allowing teachers to focus on areas of knowledge and understanding which may need more practice.
